

TCJN4/8 Network Junction Box

Product description

The TCJN4/8 junction box connects four or eight load cells in parallel.

The junction box is designed to be used with our weight indicators and features a socket compatible with all our indicator variants.

The TCJN4/8 junction box can only be used by digital load cells. It should not be used by analog load cells. Its communication protocol is half duplex RS485 interface.

Key features

Environmental protection rated to IP66

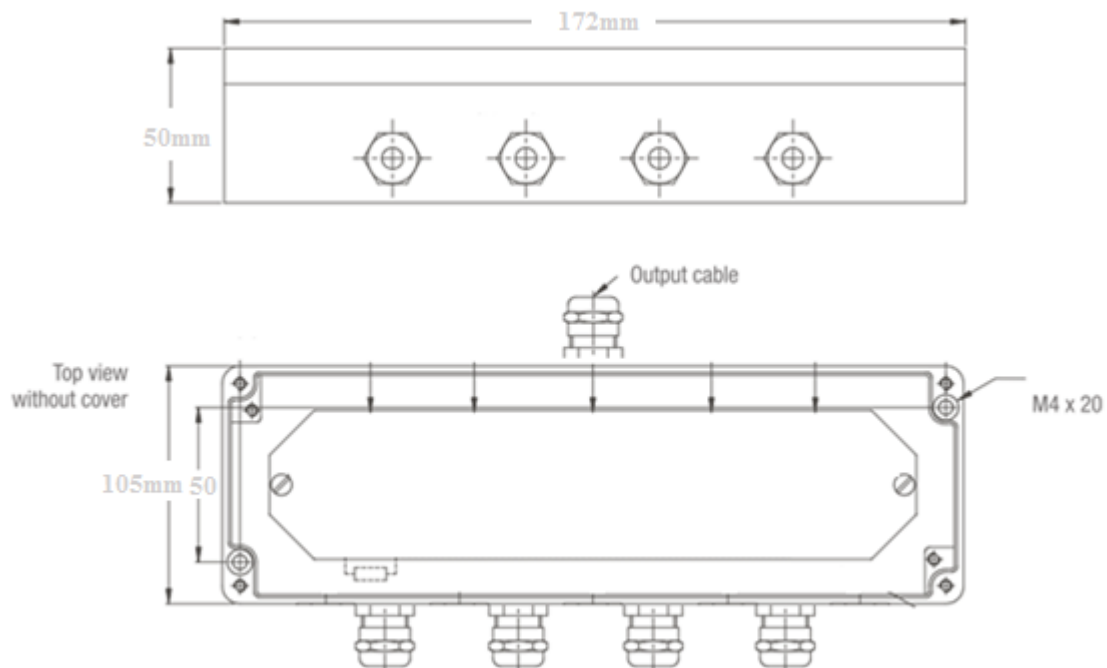

4 or 8 load cell connection

Painted metal construction

Applications

Universal applications in weighing machinery, process weighing, test & measurement and process automation and control sectors.

Product dimensions (mm)

Enclosure

Dimensions (mm)

TCJA4	172 × 105 × 50
TCJA8	172 × 141 × 50
