## Product description

We pioneered the concept of the single column compression load cell – the TCLC. Compact and yet very robust the TCLC is available in a range of capacities from 10t through to 40t. The rocker column design ensures that the optimum weighing accuracy is achieved when subjected to scale deck movement.

### Key features

**Alloy steel rust-resistant construction**

**IP68 protection**

**Calibration in mV/V/Ω**

**Optimized for parallel connection**

**High input resistance**

**Self-restoring column design**

**Lighting Protection**

### Applications

**industrial platform scales**

**ladle weighing systems**

**Silo weighing systems**

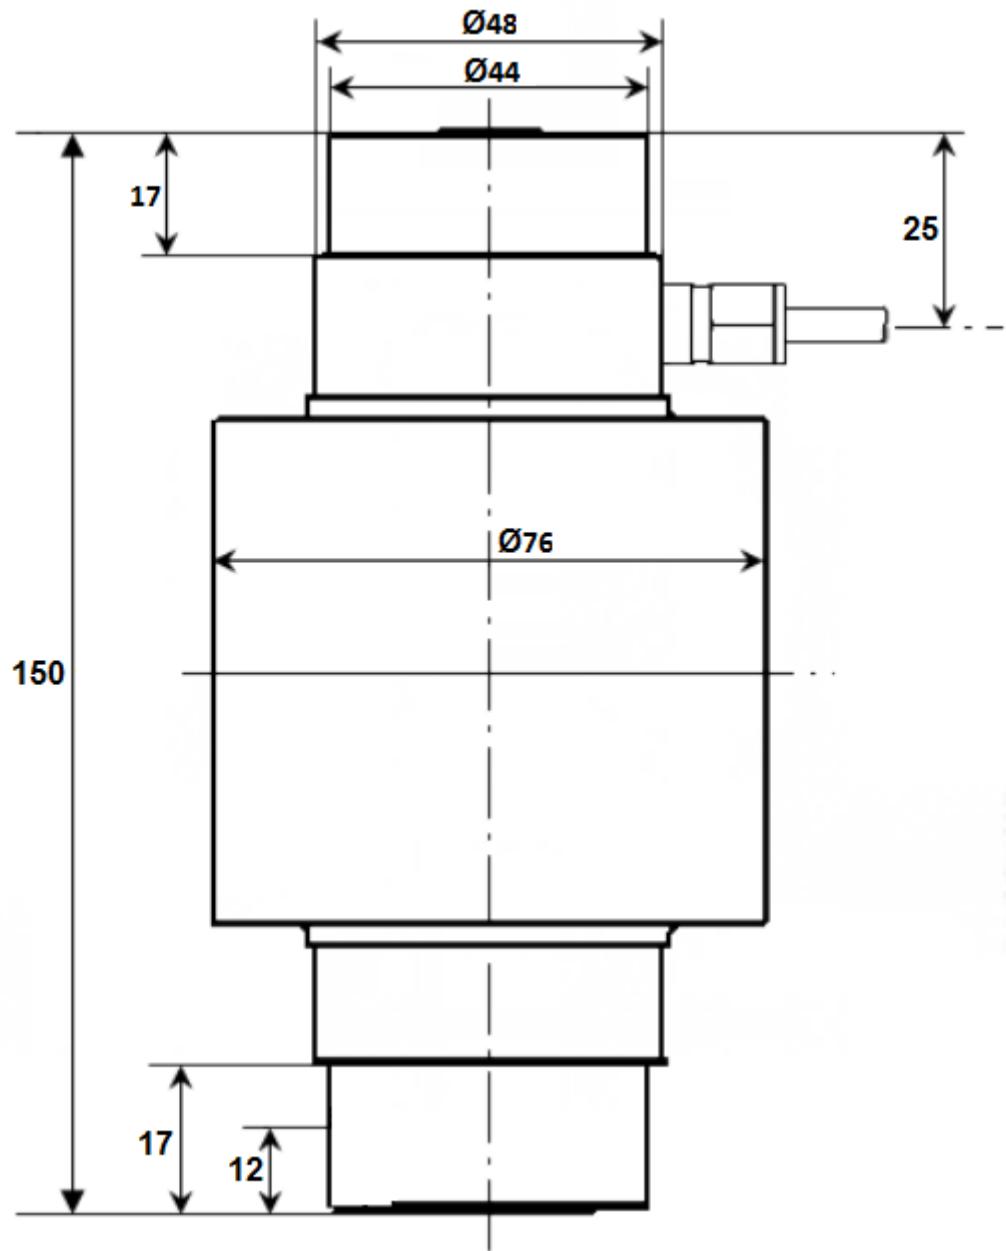

**Truck scales**
